# Welcome to Grace-Led

*A Faith-Led Path to Starting Your Own Virtual Assistant Business*

Hi, I'm Lucy — owner of By His Grace Studios and founder & creator of the Grace-Led Virtual Assistant Course.

I'm a designer, photographer, business owner, and entrepreneur who built my own brand from the ground up. And now, I'm here to help you do the same.

## *Why Grace-Led Exists*

Grace-Led was created with one mission: To empower women to build their own Virtual Assistant businesses with confidence, clarity, and God-led direction.

For so many women, the dream of working from home, earning an income, and creating a life of flexibility feels out of reach. Maybe you feel uncertain...

Maybe you don't know where to start...  
Or maybe you simply need someone to guide you step-by-step.

Grace-Led was designed exactly for that.  
A safe space.  
A practical roadmap.  
A faith-filled foundation.

A place where you can learn, grow, and build a business with purpose.

## The Vision Behind This Guide

This Free Guide is your first step toward discovering what's possible for you.

Inside, you'll get a look into what a VA does, what services you can offer, and what skills you already have without even realising it.

But more importantly, you'll see that:

- You do not need experience
- You do not need a degree
- You do not need expensive software or equipment
- You only need a willing heart, a teachable spirit, and guidance

Grace-Led is here to give you that guidance.

## *Why I Created the Grace-Led VA Course*

When I started my own business, I had to figure everything out on my own — what to charge, how to onboard clients, how to design my brand, how to present my services, and how to stay confident.

It was overwhelming.

I wished someone would have given me a roadmap.

And that's exactly why this course was born.

The Grace-Led VA Course gives you everything I wish I had when I started — simple, step-by-step instructions designed for beginners, rooted in faith, and focused on helping you succeed.

## What the Course Will Help You Achieve

By the time you finish the Grace-Led Virtual Assistant Course, you will have:

- ✓ A fully set-up VA business
- ✓ Your brand identity defined
- ✓ Your services + pricing finalized
- ✓ All onboarding documents ready
- ✓ A professional portfolio you can send to clients
- ✓ A clear marketing plan
- ✓ A list of tools + systems to run your business smoothly
- ✓ The confidence to find your first clients
- ✓ A faith-filled mindset that supports your growth

This course doesn't just teach you —

It builds your business with you.

You'll walk away with every tool you need to start strong and step boldly into the business God is calling you to create.

## This Journey Is For You If...

- You dream of working from home
- You want more flexibility and financial control
- You want to make an impact using your gifts
- You desire a business rooted in purpose, not pressure
- You're ready to take the first step — even if you feel nervous

## 1. Why Now is the Right Time

- The global Virtual Assistant (VA) market is growing rapidly – projected compound annual growth rates (CAGR) of ~24–28% worldwide.
- In South Africa:
  - Businesses are increasingly outsourcing tasks to VAs to reduce costs and gain flexibility.
  - Example: The South African virtual shopping assistant market alone is forecast to grow at a 28.6% CAGR from 2025–2033.
- Local rate insights: Entry VA rates in South Africa range around R150–R300/hr depending on skill level.
- This means: for part-time hours you could be earning several thousand Rands/month, and full-time VAs report much higher.

Bottom line: The demand for VAs is real and growing – you have a timely opportunity to begin.

## 2. What a Virtual Assistant Actually Does

- Here are example services you can provide to businesses:
- Admin & inbox/calendar management
- Data entry, spreadsheets, file organisation
- Social media support: posts, captions, engagement
- Customer service email/chat support
- Website updates, blog uploads, basic tech tasks
- Digital-marketing support: emails, lead magnets, content creation
- This is not recruiting, reselling, or selling “digital product” schemes – this is offering real services to businesses. You are the service provider.

## 3. Why South Africa is a Great Place to Start

- Strong English proficiency among SA professionals means you can serve local or international clients.
- Time-zone overlaps with UK/Europe favour remote collaboration.
- Many SMEs (small/medium enterprises) in South Africa don't have big admin teams – they need help, creating a gap you can fill.
- You can start from home with low overheads and build a professional business that scales.

## 4. What This Free Guide Prepares You For

By reading this introduction, you will:

- Understand the business opportunity of being a VA
- See which services are in demand and how you might start offering them
- Recognise why you're in a good position (skills + home-based + flexibility)
- Be ready to move into the next step – setting up your business, selecting services, finding clients, and getting paid

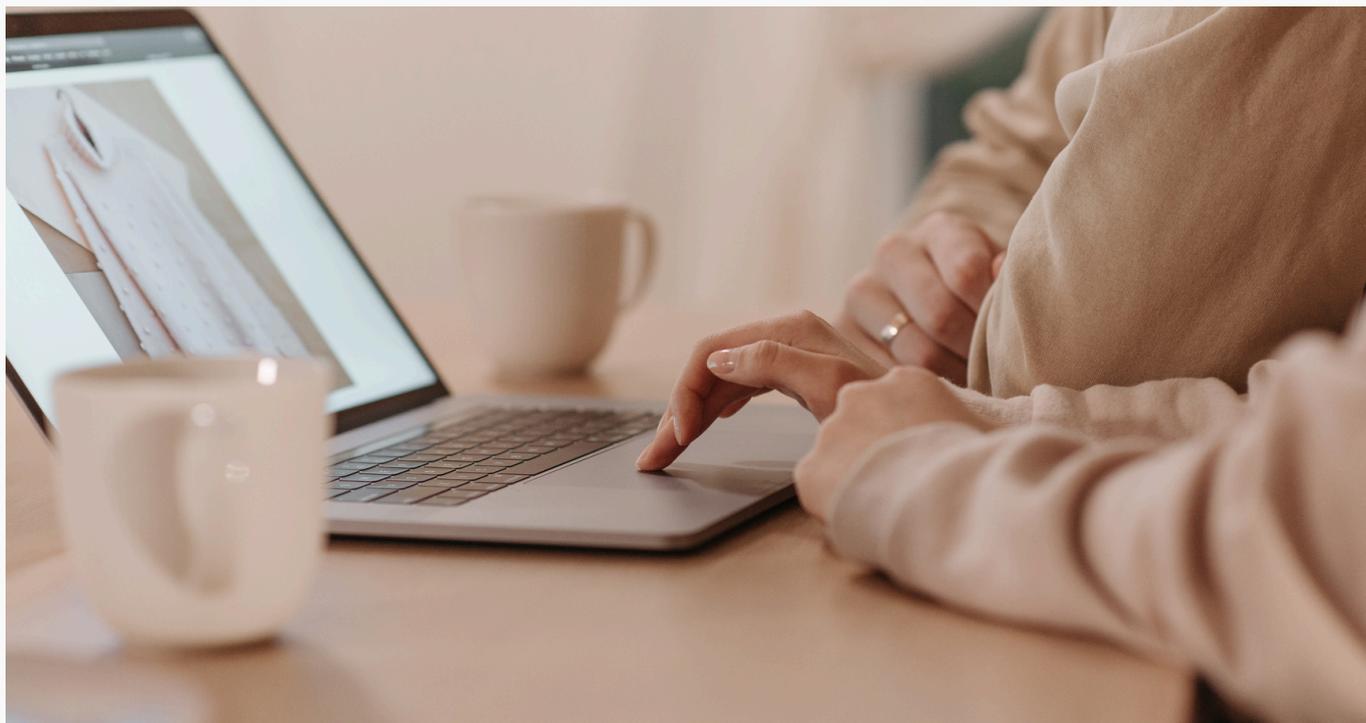

## 5. Your Next Step (The Paid Course)

To turn this motivation and insight into action, and to give yourself the best start, I invite you to enrol in the full course where I guide you step-by-step:

- 5 modules covering everything: from introduction, services, marketing, mindset, to client management
- Step-by-step instructions to set up your business correctly
- Support through the process to launch your VA business
